

ASSOCIATE OF SCIENCE DEGREE OVERVIEW

TVCC offers one Associate of Science degree. However, we have created focus areas so that the Advising sheets have a planned sequence of courses designed to meet lower division requirements in specific programs at receiving institutions in Oregon, Idaho, and Montana. Completion of these degrees does not guarantee that all lower division requirements have been met. Students are advised to plan well in advance of transfer for specific prerequisite and pre-major course requirements. Students should develop an educational plan, working closely with their TVCC advisor as well as an advisor at the four-year college or university selected for transfer.

This degree is also excellent preparation for transfer to many private and out-of-state colleges and universities.

- Students must complete a minimum of 90 quarter credits in courses numbered 100 or above with a grade point average of at least 2.0 in order to graduate with an AS degree.
- Students must also earn a grade of "C-" or better in each foundation skills course; foundation skills courses include writing, math, and communication/speech.
- At least 24 credits must be earned at TVCC.

Focus Areas Include:

Agriculture Department

Focus Areas in: [General Agriculture](#)

,
[Agriculture Business](#)
,
[Animal Science](#)
,
[Soil Science,](#)
[Plant Science](#)
, and
[Crop Science](#)
.
