

## SHORT TERM TRAINING

### Career Readiness Certificate (CRC)

The Oregon Career Readiness Certificate is an employment credential. The college, in partnership with the Oregon Employment Department, offers individuals the opportunity to test for the Career Readiness Certificate. This certificate is based on the results of testing for foundational skills in reading for information, applied mathematics and locating information, and it verifies three different skill levels: basic (bronze), proficient (silver), and advanced (gold).

### Emergency Medical Responder

The TVCC Emergency Medical Responder (EMR) course provides essential training in pre-hospital care, focusing on immediate, life-saving interventions before advanced EMS personnel arrive. This 60-hour entry-level program is ideal for those pursuing careers in emergency services, public safety, or healthcare support roles. The curriculum adheres to the National EMS Education Standards and is officially approved by the U.S. Department of Transportation (DOT) and the National Highway Traffic Safety Administration (NHTSA). Participants will gain foundational skills in patient assessment, CPR, trauma response, and emergency scene management-preparing them to act confidently and effectively in critical situations.

### Wildland Fire Training for Industry

These courses are designed to meet the safety and management needs of wildland fire operations. Basic skills classes prepare students for entry-level employment with public and private fire crews. Advanced and specialized classes are available to people currently working in wildland fire crews, allowing them to remain current or upgrade their skills. Course curriculum meets or exceeds the National Wildfire Coordinating Group (NWCG) nationally accepted standards. Note: Many wildland fire classes can be used to obtain an [Associate of Applied Science Degree in Wildland Fire Management](#).
